

The **American Recovery and Reinvestment Act** (ARRA) presents myriad opportunities to your business, but it also requires substantial resource investment in tracking and reporting.

Kelly, Anderson understands these challenges and retains subject matter experts who can help ensure your systems and business practices are ready to meet the transparency and accountability requirements of the White House, Office of Management and Budget (OMB), Inspector General (IG) Transparency Board, and the American people.

Kelly, Anderson can help.

We are asking the American people to trust their government with an unprecedented level of funding to address the economic emergency.

In return, we must prove to them that their dollars are being invested in initiatives and strategies that make a difference in their communities and across the country.

-Rahm Emanuel, White House Chief of Staff, and Peter R. Orszag, Director, OMB, February 9, 2009
