

GOVERNMENT SERVICES PRACTICE

OVERVIEW

Kelly, Anderson & Associates has developed core capabilities for providing Financial Management, Information Technology, Acquisition, Organizational, Survey, and Facilitation consulting services. Our network of over 300 consultants, most of whom are former Federal officials, managers, and supervisors, includes senior associates and associates who possess extensive knowledge and experiences working directly with numerous Federal programs.

Our consultants' vast knowledge of Federal regulations, policies, procedures, and operational processes have proven to be valuable assets in supporting dozens of Federal civilian and defense departments, agencies, bureaus, and offices. Our past performances include a wide range of strategic planning, benchmarking, policy analysis, technical writing, internal control assessments, information technology compliance, financial system enhancements, acquisition reviews, and other management support services that have all been well-received and achieved high quality post-evaluation ratings.

Kelly, Anderson & Associates has past and current experience working with over three dozen Federal agencies.
