

## SECURE TECHNOLOGIES PRACTICE

### OVERVIEW

Kelly, Anderson's secure technologies practice focuses on issues related to the development and implementation of technologies to deter counterfeiting and secure documents having an inherent monetary value. Customers are those government agencies that are responsible for the production and distribution of documents of value that are subject to counterfeiting, such as currency, passports, visas and checks.

The firm has developed expertise with emerging technologies, such as document readers, fingerprint imaging and various forms of biometric access control systems. In addition, Kelly, Anderson has in-depth experience with physical and logical security and processes.

*We provide strategic business development and technical consulting services to members of the security document industry.*

*Our deep expertise is delivered by a team of document security experts.*

*We offer extensive experience with Government requirements involving:*

- Security paper

### BANKNOTE CONFERENCE®

Kelly, Anderson directs a highly successful series of conferences dedicated to banknote technology. The Banknote Conference® is a definitive forum on emerging trends and leading technologies in the banknote industry, with the goal of bringing together both government and private industry sectors. The highly respected group of representatives from manufacturers, suppliers, governments and law enforcement agencies gather to review and discuss trends in banknote design, production, issuance and usage.

## CURRENCY ADVISORY GROUP

In response to the ever increasing complexities of design, production, issuance and governance of currency programs, Kelly, Anderson has developed a core capability to provide expertise to governments around the globe on banknote and coin related matters. Kelly, Anderson's team brings decades of knowledge through its team of former central bank and government printing works subject matter experts. This world experienced team of experts includes individuals who have played key roles in shaping the direction of government's total cash cycle. Kelly, Anderson's experienced team provides an effective complement to the skills and abilities of Kelly, Anderson's clients support throughout the entire currency development cycle.
